Professional Summary

Full Stack Web Developer with experience in both front-end and back-end development. Skilled in React.js with CSS/SASS styling, and frameworks like Material UI. Experienced in developing isolated UI components with Storybook and publishing them on NPM.

Back-end expertise in Node.js and Express, using JavaScript and TypeScript with clean architecture and SOLID principles. Knowledgeable in relational and non-relational databases. Agile practitioner (SCRUM) with solid version control skills using Git.

Experienced in CI/CD workflows integrating GitHub and Vercel, streamlining deployments and improving development efficiency. Leverage AI tools like GitHub Copilot, ChatGPT, Claude, Mistral, Gemini, and Vercel's V0 to boost software productivity. Strong Linux skills, attention to detail, and effective communication.

Professional Experience

Full Stack Developer — Siempre Más, Argentina   Jan 2024 – Present.

· Developed SSO login features for a client loyalty system, increasing user engagement by 20%.
